PART B: PARTY ADVERTISEMENTS SHARED WITH CANDIDATES OR OTHER PARTIES

In this part you should record all election expenses incurred in relation to election advertisements published, or continued to be published, during the regulated period for the general election (23 June to 22 September 2017) promoting the party and one or more candidates or parties.

Apportionment is permitted between the party and a candidate(s) or other party(ies). Where an expense item has been apportioned between the party and candidate(s) or party(ies), record the total cost of the advertisement and the share apportioned to the party based on coverage. You should ensure there is a consistent description and approach to apportionment in each return of election expenses. Record the name of the candidate(s) or other party(ies) featured in the advertising in the item description.

For advertisements published both before and during the regulated period you should apportion the costs so that only a fair proportion of the expenses are

attributed to being incurred during the regulated period. Only record the amount attributable to the regulated period in the return.

Disclose the total amount incurred on election advertisements published during the regulated period even if payment for the advertising was made outside of the regulated period.

Election expenses include:

- the costs incurred in the preparation, design, composition, printing, postage and publication of the advertisement, and
- the reasonable market value of any material used or applied towards the advertisement provided to the party for free or below reasonable market value.

Further guidance is available in the *Party Secretary Handbook – General Election 2017*.
