		65-69	1672	
				3982

AS AT 31 July 2024

## Areas of deprivation map

This map visually represents areas of deprivation within the electorate. The higher the index of Deprivation (1 - 10), the more socioeconomically deprived an area is considered (see Glossary). Prepared from data published in the *New Zealand Indexes of Deprivation* – [2018 files here](#) by the University of Otago, Wellington.
