Information on Candidate Expenses

Candidate election expenses are the costs of advertising in any medium that:

- may reasonably be regarded as encouraging or persuading voters to vote, or not to vote, for an electorate candidate (whether or not the name of the candidate is stated), and
- are published, or continue to be published, during the regulated period for the general election (23 June to 22 September 2017), and
- are promoted by the candidate or with the candidate's authority.

Election expenses include:

- the costs incurred in the preparation, composition, printing, postage and publication of the advertisement, and
- the reasonable market value of any material used or applied towards the advertisement provided to the candidate for free or below reasonable market value.

A candidate's deposit or the costs of hall hire, refreshments, the conduct of surveys or opinion polls, free labour, the framework that supports hoardings (other than a commercial framework) or replacing materials that have been destroyed through no fault of the candidate are not election expenses.

Your election expenses during the regulated period must not exceed \$26,200 (including GST). It is an offence to spend more than this.

Further guidance is available in the *Candidate Handbook - General Election 2017*.

Instructions on how to complete Part F

You should record all election expenses incurred in relation to candidate advertisements published, or continued to be published, during the regulated period for the general election (23 June to 22 September) promoted by you or with your written authority.

For advertisements published both before and during the regulated period you should apportion the costs so that only a fair proportion of the expenses are attributed to being incurred during the regulated period. Only record the amount attributable to the regulated period in the return.

Disclose the total amount incurred on election advertisements (including GST) published during the regulated period even if payment for the advertising was made outside of the regulated period.

The description of the item should be sufficient to identify where and when it was published. Where another person has initiated the advertising you should also include the name of the promoter in the item description.

Apportionment is permitted between a candidate and party(ies) and other candidate(s) based on coverage. Where an expense item has been apportioned between you and the party and/or candidate(s) you should ensure there is a consistent description and approach to apportionment in each return of election expenses. Record the name of the party or other candidate(s) featured in the advertising in the item description.

For advertisements published both before and during the regulated period you should apportion the costs so that only a fair proportion of the expenses are attributed to being incurred during the regulated period. Only record the amount attributable to the regulated period in the return.
